Amsterdam, Aug. 1.—The semi-official Wolff bureau of Berlin is sending out reports of heavy losses inflicted on American troops fighting on the Marne front A telegram dated Wednesday and received here says:

"An American prisoner captured on July 29, said that of the first battalion of the 110th regiment after a German attack east of Chateau Thierry on July 17, only thirty were left and no rein-forcements had arrived since that time The second battalion of the same regiment in going forward to the attack Tuesday (July 30) west of Meuniere wood had one hundred casualties."

FIRST FOREIGN BANK.

Has Been Established in Ecuador with \$200,000 Capital.

Washington, D. C., Aug. 1.—The first banking institution with foreign capital to be established in Ecuador has been or ganized at Quito. It has a capitalization of 400,000 sucres, equal to approximately \$200,000 in American money. Branches will be established at other points in South America and it is announced that the business of the bank will be principally to deal with foreign countries None of the capital stock is owned by the Ecuadoreans, but there is no American or English money in the institution The bank is owned entirely by Spaniards and Latin-Americans of other countries.

London, Aug. 1 (British wireless serv e).-The whole world understands and appreciates the tragic position of heroic Belgium and Serbia and all the allied peoples have deep sympathy for Ruma-nia and Montenegro, but only scant at-tention has been given to the bitter lot of the people of Luxemburg

For four years now the citizens of Luxemburg have lived isolated under the oke of German military domination. It s said there are 3,000 Luxemburg volun teers in France's foreign legion and that they are gallant fighters on the side of justice and humanity. It is true that Luxemburg has not faced the cruel dev-First Factory in South America to Build against the German legions on their own soil, but war has come by air, and just and Liberty bonds are not of par value as it has been necessary for the entente and will not be for several years. Naturally the German propagandists the immediate purchase of their goods in Luxemburg, as in Belgium, have tried to arouse hostility against the entente by exploiting the air raids. But again as in Belgium their efforts have proved letters to the leaders of the rage in the singularly unsuccessful. The Luxemburgers persist, in spite of all propagands, in regarding the German invader as the real emprit; they recognize clearly that Luxemburg is raided because the German is there. Protests by the Luxemburg Parliament and government against Ger-many's action in placing anti-aircraft guns around Luxemburg have been un-

London, Aug. 1.-The enemy may cer tainly plume himself on his retirement according to plan, but, says Reuter's, it can scarcely be according to plan that he left hundreds of tons of ammunition behind him. There is as yet no conception of the enormous figures to which these losses in materials of war will run. When the vast numbers actually captured are added to the millions of shells exploded either by himself or by the allied fire, some idea of his loss may be gained. The enemy has moved his guns wonder-fully well, but his gunners have been warned to be sparing of ammunition and to fire only when necessary to support his infantry

PERU TO HAVE CENSUS.

Information at Hand Is Vague and Unreliable.

Washington, D. C., Aug. I.-American government officials are interested in the announcement from Lima that Peru has ordered a census to be taken next year. Statistics of population and industries in South American countries are vague and unreliable for the most part, as no census has been taken in some of the

countries for many years.

According to information received here the 1919 census will be fairly complete and based to great extent upon the recent census of the United States, although the classifications will not indude as many items as have been included in this country.

GERMAN CORN YIELD LOW.

Is Barely Sufficient for the Feeding of the Population.

New York, Aug. 1.-The yield of the German corn crop has been reduced and is barely sufficient for the feeding of the population, according to a statement made by Privy Councillor Kleinert of the imperial German bureau before the food committee of the Reichstag, according to the Berlin Tageblatt of June 14. In reply to a demand by the bour-geoisie parties that the farmers be allot-

ed a larger quantity of a certain kind of corn (called in German hinterkorn, black corn), as this would have a con-ciliatory effect in view of the many enforced deliveries and numerous compulory measures, Kleinert said that the so-called "hinterkorn" could not be re-leased in general for fodder purposes, for the reason that unfavorable experiences had been made in that respect in 1916. Notwithstanding a careful system of control, extraordinarily great difficulties were encountered and these difficulties would increase now that "the situation as a whole is more tense than in 1916 and that the total yield of our crop has been further reduced and barely suffices for the feeding of the population."
